

# Here's how to do it ...

Thanks for purchasing  
your iFrameit kit

Grab all those great memories from your event - **MEDAL, BIB & PHOTOS** and get ready to Frame!

## STEP 1: Let's start!

- \* Remove frame from packaging and place face down
- \* Fold the metal clips up
- \* Remove backing from frame
- \* Carefully slide the insert away from the glass.

Your Frame Kit has spaces for:

1. **YOUR** personalised **PLAQUE**
2. **MEDAL** (step 2)
3. **BIB** (step 3)
4. **PHOTOS** (step 4)

## STEP 2: First, put the **MEDAL** into **Box #1**.

- \* Lower the **MEDAL** into the opening on the top of the box.
- \* Use the velcro to stick the **MEDAL** in your preferred position, so it does not move.
- \* Flip the insert over
- \* Stick the ribbon to the back of the insert with the double sided tape.

## STEP 3: Your **BIB** needs to go into **Box #2** now.

- \* Place some double sided tape on the back of your **BIB** and stick it down.

... you are nearly there ... !

## STEP 4: **PHOTOS** of you looking like a hero need to be put in **Box #3** and **#4** now.

- \* Peel off the double sided tape on the back of the insert and secure your photos by holding the insert down (onto the photo) for 5 seconds, against a flat surface.

## STEP 5: You're at the **finish line!**

- \* Carefully slide the insert back into the frame and replace backing
- \* Fold the metal clips back so everything is safe and secure.

## HANG THE FRAME

& enjoy your memories for life!
